9) Held

10) LB 15-42 (14, 15, 31, 32+34) ~~transcript~~ obtained from the Govt Mysore to put up

KHS 9/11

11) The proposal of the Director of Health is to appoint seven Assistant Sanitary Inspectors on pay of Rs 25—1—35—1½ each p.m. in lieu of the seven Lst Registrars of Births & deaths on the ground of securing greater efficiency the Director of Public Health affairs of the Islands states that no Sanitary Inspector is now available for being posted immediately and that the existing staff might be gradually replaced. This might be accepted.

The other part of the proposal is to convert the posts of the Vaccinators also into that of Assistant Sanitary Inspectors in order to secure uniformity. The scale of pay of the Vaccinators in all the Islands was revised to Rs 20—½—25—1—30 in the G.O. dated 27 & 43—barely three months ago. It does not at all appear necessary to change them so soon and substitute Asst. Sanitary Inspectors therefor.

12) Further the cadre would amount to Rs 156 p.m. or Rs 1873 p.a. — which is rather heavy. More

~~The~~ Asst Sanitary Inspectors to fill the places are not also easily available

Having regard to the fact, that
" question of carrying the vaccination
posts and those of Asst Sanitary Inspectors
may be kept up for the present and
the proposal to convert the places of
the Sub-registrars of Births & Deaths
into those of Asst Sanitary Inspectors
may be approved. As a matter
of fact, it should be possible for
the latter to attend to vaccination
work also in addition, as this would be
stationary as between but would be
saving about one hour's conveyance from which
they are to be paid at Rs 5/- p m
If approved, the further system of the
payment will be as above will be
called for

22 JUNE 1943
L S G BRANCH

From

B S RAGHAVENDRA RAO, ESQ ,M A (Hons)
PRESIDENT CITY MUNICIPAL COUNCIL
MYSORE

To

Narayanaswamy Naidu, Esq , B A ,B L ,
Secretary to Government, Law Department,
BANGALORE

Sir,

I have the honour to state that for some time the Health Officer has been pressing for the reorganisation of the health staff in order to improve the quality and efficiency of the work in that Section With this end in view and as a part of this reorganisation, he submitted propo sals to replace vaccinators and Sub Registrars by Assistant Sanitary Inspectors The proposition in its original form was sent on 23rd April 19 by Dr Seshagiri Rao, who was then the Health Officer of the City, in which he suggested that the Sub Registrars and Vaccinators may be replaced by Assistant Sanitary Inspectors The Municipal Council, in their meetin held on the 31st May 1941, resolved that the note in the form submitted by the then Health Officer could not be supported

2 The present Health Officer has again brought forward the same proposition with some modifications The sanctioned scales of Vaccinato at present are 2 on Rs 25/- and 2 on Rs 20/- They are fit only for vac nation work and for no other During the non-epidemic season each Vacci nator may not have more than two or three cases and obviously this is not enough work for a full time official The proposal of the Health Officer therefore to convert these posts into Assistant Sanitary Inspectors who could in addition to vaccination be entrusted with additional sanitation and conservancy work is certainly one which deserves consider tion If in lieu of Vaccinators we have Assistant Sanitary Inspectors to do vaccination work these would be a very useful reserve and the Heal Officer could, during non-epidemic seasons, use them for other work as well The extra expenditure on this account is very small

3 Similarly the Municipality has got at present seven Sub Registrars of Births and Deaths and these are appointed by direct recruitment They start on a fixed salary of Rs 20/- They have no chances of promotion at all as they do not fit in either in the clerical or other executive appointments in the Health or other departments, with the result that the type of men that we get for this work is most unsatisfactory Moreover just as in the case of Vaccinators they will not have full time work and the proposal of the Health Officer to convert these posts also to that of Assistant Sanitary Inspectors will result in securing greater efficiency in the Municipality

4 The whole scheme will cost very little extra expenditure to the Municipality while it would undoubtedly improve the efficiency of Registration and Vaccination work in the City The Health Committee of the City Municipality therefore approved of the proposal and the Municipal Council, to whom the question was then referred to for consideration, have also approved of it, in their resolution No 589 dated 31st March 1943 Copies of the resolutions of the Committee and of the Council are herein enclosed

5 I am enclosing herewith in original, the proposals of the Health Officer and a proposition statement in the usual form The proposals will result in an extra cost of Rs.156 1/9 per month (Rs.1873⅓ - per year) and the Municipal Council having agreed to this, the proposals may kindly be approved

I have the honour to be,
Sir,
Your most obedient servant,

By Narasimhaswamy

Submitted to the President

Dr S Seaf[illegible] Rao has submitted a proposal on 19-12-1941 for entertaining trained Assistant Sanitary Inspectors for the posts of Sub Registrars of Births & Deaths and vaccinators in Bangalore City The subject, after discussion in the Municipal Council, was sent back stating that the note in the form submitted could not be supported I am submitting again the note with some modifications for reconsideration

At present the Registration of Vital Statistics is being done by a class of people who are not trained for the work and hence cannot, therefore, appreciate the importance of collecting accurate information regarding the vital occurrences

The collection of data relating to vital statistics, its analysis and recording, form a division of a Health Organisation, the importance of which cannot be over-emphasised The progress in the health work can only be judged by a proper interpretation of these data and unless the statistical division is properly organised, it will be impossible to assess the return for the expenditure incurred on health activities Because sufficient stress has not been laid on this aspect of the question, it is now neither possible to evaluate properly all that has already been done in the Municipality so far nor is it possible to draw up a programme of work immediately for the future based on a scientific definition of the problems and their order of importance and urgency

Municipal midwives and the staff of Gun[illegible]bet Maternity and Child Welfare Trust have now been handing maternity and child welfare activities under each Their activities were till now dissociated from one another and from the Health Department of the Municipality

The whole of the City had not been taken up for intensive maternity and child welfare activities so far. The midwives' duties had not been specified and their work was only haphazard. The City has now been divided into 24 areas on a population basis and each area has been placed under the charge of one midwife for intensive work. Individual home visits by the midwives according to a definite programme is an important feature in the present scheme of work. The large amount of information that we will be able to get, if properly utilised, will be of great use in the future reconstruction of health activities of the Municipality. The Sub-Registrars have now been asked to visit the Child welfare Centres every day in order to collect the information supplied by the midwives and submit it to the Health Officer for being utilised in whatever manner necessary.

A trained and intelligent staff, I need hardly mention, is very necessary to carry on efficiently these activities which are of a technical nature. By placing Assistant Sanitary Inspectors in charge of ~~the~~ registration work it will be possible to accomplish this object with very little extra expenditure. The Assistant Sanitary Inspectors could also be depended upon to perform the duties of Sanitary Inspectors when occasions arise and since their appointments carry a graded scale of pay (which is at present lacking for the Sub-registrars in the Municipal service) the former will have an enthusiasm for advancing their own positions in service and the nature of work turned out by them will naturally be going to be of a superior quality.

At present there are seven Sub-registrars (and a Junior one on Rs. 17/- who has not been entertained) ~~under the Municipality~~ in the Municipality. Of these, three Sub-Registrars' places are at present vacant as two incumbents have gone for training in the Sanitary Inspectors' training class and one has resigned. The two Sub-registrars' places are now being manned by ~~temporary~~ temporary clerks. The vacancies

I [illegible]

RESIDENT

Reference - Replacing the Sub-registrar Vaccinators' place by trained Assistant - Sanitary Inspectors

---

In continuation of my proposal for recruiting Assistant Sanitary Inspectors for the posts of Sub-Registrars, I wish to propose that the vaccinators places may also be treated similarly. There are at present 4 vaccinators (2 male and 2 female). The lady vaccinators, I find, are not of much use to the Municipality. Inspite of all that could be done, they are turning out very little work. However, since the Council may insist on having lady vaccinators for vaccinating the gosha ladies in the City, I suggest that one of the may be retained, if necessary. The three other places may be filled in by Assistant Sanitary Inspectors. The advantages of this proposal are obvious.

The following table shows the extra expenditure that will have to be incurred in case

Submitted to the President (114)?

Reference Replacing the Sub-Registrars of Births & Deaths by Vaccinators by - Trained Assistant Sanitary Inspectors.

In continuation of the above proposal, I wish to point out that in order to compile and solve the statistical data that are connected in the Municipality, it is necessary that the clerical staff are specially trained for this purpose. There are at present no trained clerks in the Health Section for this branch of work. This training may be had only in the office of the Registrar-General of Births & Deaths.

I, therefore, suggest that arrangements may kindly be made to get trained clerks from this Department for statistical work in this Municipality, or in the alternative, to depute suitable clerks to the office of the Registrar-

Secretary to Government, Law Department,
Bangalore

Sir,

I have the honour to invite your kind reference to this office letter No M4-745/1942-43 forwarding for approval the proposal of the Health Officer to convert the posts of the Vaccinaters and of the Sub-Registrars of Births and Deaths of this Municipality to that of Assistant Sanitary Inspectors, for securing greater efficiency and to improve the quality of work in his section, and to state that the sanction of Government has not been obtained to this proposal yet Now six vacancies have occurred within a month by the appointment of four Sub Registrar elsewhere and by the retirement and absence of two Vaccinaters Vaccination work is greatly handicapped for want of trained hands

2 The necessity for reorganization of the Vaccination and Sub-Registration Sections has been explained in my letter referred to above and I request you to be so good as to obtain ear sanction of Government to the resolutions of the Council who have agreed to bear the extra cost involved by giving effect to this proposal

I have the honour to be,
Sir

Sir,

Subject - Replacement of Sub Registrars of Births and Deaths and Vaccinators of the Mysore City Municipality by Assistant Sanitary Inspectors

Adverting to the correspondence ending with your letter No L 5622/M1 11-42-121 dated the 30th November,43 on the above subject, calling for the opinion of the Municipal Council on the lines proposed in your letter under reply, I have the honour to state that the matter was discussed in the Health Committee on the 18th Jan 1944, which came to the conclusion that a recommendation be made to the Council, to request Government kindly to reconsider the resolution dated 31st March 43 of the Council, to entertain Assistant Sanitary Inspectors for the posts of Vaccinators and Sub-Registrars The Municipal

Council have in their meeting held on the 29th January 1944, approved of the resolution of the Health Committee, a copy of which is herein enclosed for kind perusal

As the Municipal Council, is in favour of the proposal being sanctioned in its entirety, I request that sanction of Government to the same, may kindly be accorded

Sir,

Subject - Replacement of Sub Registrars of Births and Deaths, and Vaccinators by Assistant Sanitary Inspectors

---

With reference to the correspondence ending with your letter No L 8638 dated the 17th February 1944, on the above subject, requesting to furnish information in regard to the absorption of the present incumbents, in case the above proposal is sanctioned, I have the honour to state that according to the sarctioned scale, there are seven posts of Sub Registrars of Births and Deaths, two posts of Vaccinators and two posts of Lady Vaccinators Of the seven posts of Sub Registrars, six posts are held by acting incumbents whose services could be terminated and the remaining permanent incumbent will be absorbed in any of the existing vacancies in other sections of the Municipality The two male vaccinators are proposed to be transferred to some other Municipality or District Board where there is need for their service, in consultation with the Director of Public Health As regards the two posts of lady vaccinators, one is required to be retained by this Municipality under the proposed new scheme and the other post which is to be abolished is held by an acting incumbent whose services will be terminated The Director of Public Health has been requested to make available the services of the required number of

Assistant Sanitary Inspectors for the above posts

In these circumstances, I request that sanction may kindly be accorded to the resolution of the Municipal Council in this respect

I have the honour to be,
Sir,
Your most obedient servant,

PRESIDENT

Correspondence ending with letter No M 4-745/42-43 dated the 10th April 1944 from the President, City Municipal Council, Mysore requesting sanction to the revision of the scale of pay of the Sub Registrars of Births and Deaths and of the Vaccinators in the City Municipality as noted in the proposition statement by converting them into places to be held by the Assistant Sanitary Inspectors on Rs 25-1-35 plus Rs 5 conveyance allowance per mensem as resolved by the Municipal Council at their meeting held on 31st March 1943

2 Correspondence ending with letter No H E S 1166 dated the 30th May 1944 from the Director of Public Health in Mysore on the subject

Order No L 3946-50/ml 11-42-127

Dated, Bangalore, 25th October 1944

There are at present seven Sub Registrars of Births and Deaths in Mysore City on a fixed pay of Rs 20/- each per mensem. In order to securing greater efficiency the City Municipal Council have resolved to convert the above posts into those of Assistant Sanitary Inspectors on Rs 25-1-35-plus Rs 5 conveyance allowance, as their services could then be utilised for sanitation work also. They are agreeable to meet the extra expenditure involved by the arrangement

The Director of Public health has also approved of the above proposal.

In the circumstances, the resolution of the City Municipal Council is sanctioned

Separate orders will issue in regard to the proposal to replace the Vaccinators by Assistant Sanitary Inspectors

for Secretary to Government,
Law Department

To

The President, City Municipal Council, Mysore.
The Director of Public Health in Mysore.
